- Root Canal Treatment (RCT & Re-RCT)
- Cosmetic Dentistry & Smile Design
- Full Mouth Rehabilitation
- Patient Communication & Satisfaction
- Tooth Extraction & Minor Oral Surgery
- Pain Management & Patient Counseling
- Implant Assistance & Prosthetic Support
- Preventive Care & Oral Hygiene Education
- Team Leadership & Clinic Operations

Professional Experience

Clinic Head | Smile Elements Dental, Bellandur, Bangalore | August 2025 – Present

- Lead end-to-end clinic operations, managing 10–15 patients per day across general and advanced treatments.
- Contributed to improved patient retention and treatment acceptance rates.
- Diagnose and manage a wide range of dental cases with personalized treatment plans.
- Perform advanced procedures including restorations, RCTs, crowns, bridges, dentures, and cosmetic treatments.
- Supervise and mentor dentists, assistants, and support staff.
- Ensure smooth patient flow, efficient scheduling, and high patient satisfaction.
- Maintain strict infection control, sterilization, and clinical standards.
- Independently handle complex cases and coordinate with specialists.

Senior Dental Surgeon | Sha Dental Care, Sowcarpet, Chennai | October 2019 – July 2025

- Managed 15–20 patients per day in a high-volume clinical setting.
- Conducted comprehensive oral assessments and crafted individualized treatment plans.

- Provided a wide range of treatments including restorations, root canals, crowns, bridges, dentures, and cosmetic procedures.
- Handled independent case evaluations in a fast-paced clinical environment.
- Managed pain effectively using sedation and local anaesthesia techniques.
- Led and trained junior dentists and assistants, optimizing workflow and patient care quality.
- Recognized as Best Employee and Performer, with consistently high patient satisfaction ratings.
- Collaborated with specialists on complex cases, ensuring holistic care.

Dental Assistant | The Tusk Multispecialty Clinic, Parrys, Chennai | 6 Months (2018 – 2019)

- Assisted in performing root canals, extractions, and prosthodontic procedures.

Clinical Tools & Technologies

- Intraoral Scanners, Dental Lasers, Dental Practice Software (Practo), Basic Life Support (CPR & AED Certified)
